

THIS IS IT

EQUALISING EDUCATION THROUGH
THE REPURPOSING OF LAPTOPS

Laptop Scholarship Letter

It is with great pleasure that local businesses supporting the *This is 'IT'* initiative are able to provide you with this laptop.

The computer that you have just received has been donated by a member of Rotary.

This is 'IT' has been established by local business people wanting to have a positive impact on the education of young people. Founders of this initiative are:

- Todd Hartley - Hilton Manufacturing
- Simon Whiteley - Corex Plastics Australia
- Tyrone Landsman - Future Recycling
- Sandra George - South East Business Networks (City of Greater Dandenong)
- Andrew Simmons - South East LLEN

The founders of this initiative would love to hear how this will positively impact your life – particularly how this laptop will assist you in accessing and completing education. Please feel free to email asimmons@sellen.org.au

An investment in knowledge pays the best interest.

Benjamin Franklin

Education is the most powerful weapon which you can use to change the world.
